Message Body

Dear Ladies and Gentleman,

How appropriate some of you are conference calling today with members of the Obama administration to discuss CLEAN WATER. The email I forwarded you is from [Ex. 6 - Personal Privacy] a Dimock resident and plaintiff in the federal lawsuit against Cabot Oil and Gas as [Ex. 6 - Personal Privacy] well was contaminated their natural gas drilling. Please read [Ex. 6 - Personal Privacy] email and please help [Ex. 6 - Personal Privacy] email is [Ex. 6 - Personal Privacy]

Sincerely,

Rebecca Roter

Subject: SCGF DEP Dismisses Dimock

DEP has totally removed itself from the monitoring of the methane levels in the water wells of residents of Carter Road and below...the last Consent order totally removed DEP from role of regulator in the Dimock Affected Area...it is now the GAS COMPANIES role to monitor and report methane levels to MEADVILLE...UNDERSTAND that a private industry now officially has control..A resident of Carter road has a bubbling water well-again..DEP checks it-later states they cannot check it again because they are not supposed to be monitoring the water wells in Dimock that is now up to CABOT!! BTW the well was at 16% at the well head and may be higher today according to the owner...Also Cabot is installing treatment systems to those who would agree to the consent order- the system will be monitored by Cabot..the state will have no involvement to whether the systems even work!! The fact that some of the households who took the Cabot/Hanger deal are still getting water delivered is rather telling..Please call DEP and demand they continue to monitor the water wells in Dimock-you cannot leave it up to a company who has already repeatedly defied DEP's demands and notice of violations...this is really frightening folks..If we blow off the map will anyone notice????
